Graphic Design & Interactive Media

TMU (Formerly Ryerson) | 2005

BFA - Image Arts: Photography Studies

PROFILE

I am a full stack web developer with a strong foundation in HTML, CSS & JavaScript. I am familiar with design principles and adept at using design applications such as Adobe Creative Cloud and Figma. Problem solving is one of my strengths and I love to troubleshoot technical issues both simple and complex. I thrive in a fast paced work environment where I can maximize my productivity while continually learning and growing my skill-set. I also enjoy collaborating with my team and sharing my knowledge with others.

PROJECTS

FilmRecs - HTML, CSS, React, API & Firebase

- A single page app that takes user input to generate custom film recommendations with data from the MovieDB API. Uses a Firebase database to store user generated film reviews.

Creative Agency - HTML, SASS & JavaScript

- Fully-responsive and accessible multi-page design conversion for a fictional design agency. An interactive website built using HTML5, SASS and JavaScript.

PROFESSIONAL EXPERIENCE

Software Developer | Heart & Stroke | Oct 2022 - Present

- Work on the continued refinement of online based materials for the purposes of fundraising, communication, and stewardship.
- Develop, maintain and support email template development.
- Research, provide and implement innovative solutions that utilize software applications to help drive fundraising revenues.

Email Developer | Publicis Canada | May 2021 - Oct 2022

- Collaborated with Creative and Project Management teams in the development, implementation, and deployment of CRM email communications that conformed to the client vision.
- Utilized my acute attention to detail and stellar communication skills to code, proof, test, and troubleshoot emails to ensure a consistent experience across a variety of applications.

Junior Web Designer | Geek Unicorn | Jul 2021 - Dec 2021

- Assisted the lead Web Designer in creating page layouts for client web sites using Wordpress.
- Managed content updates and maintenance for both internal and external websites.

Store Manager | Addition Elle | Nov 2014 - Sep 2017

- Directed all sales, operational, and profit and loss aspects of a 12+ team member store operation.
